Jun 2022

Best "Self Care Hack" at MLH Mental Health Hacks II Hackathon

Project Link: **Devpost**

Mar 2022

In the top 150 teams of ZS Associates "Case Study" Challenge 2022

Mar 2021

4 Stars (Silver Badge) in Problem Solving using Java

Profile Link: **HackerRank**

Experience

ZuPay, Bangalore, India   **Jun 2022 - Jul 2022**

App Development Intern (Flutter)
- Worked closely with UI/UX designers to build **app components** and coordinated with backend developers to integrate various APIs.
- Identified immediate areas of **improvement** to increase app performance through continuous analysis and refactoring.

Revery Labs Inc, San Jose, US   **Jun 2021 - Jul 2021**

Software Engineer Intern (Flutter, Firebase)
- Collaborated with cross-functional teams to work on a flutter-based mobile application having **500+** installs in a fast-paced environment.
- Integrated rive animations, and used agile methodologies to build new features as well as fix old ones while writing clean, modular and null safe code thus improving the performance of the app by **40%**.

Projects

Companion App : A Mental Health Tracker - Flutter, Firebase, Getx, Youtube API
- Architected a full-fledged app to give people the chance to accurately assess and track their own mental health.
- Utilized Firebase as serverless backend for authentication and storage, youtube API to fetch precise content based on user's feedback and using getx to manage states and inject dependencies easily : **Source Code**

Acadmate : Academic Resource Management System - React, Tailwind, Firebase
- Developed a web-based student-run platform allowing my university students to upload and download study materials including question papers easily.
- Implemented Tailwind CSS for making its minimal interface and firebase as the backend service; More than **50+** students have already tried it at **https://www.acadmate.tech**

House Marketplace : List your house for Rent or Sale - React, Leafletjs, Firebase
- Webapp with a mobile-first design allowing users to list their houses or apartments for rent or sale.
- Using Leaflet.js for getting the map of the exact location and firebase for storage. Live at **https://housemarketplace.live**

Wordle Clone : Web - Flutter, Provider
- Wordle game clone made entirely in flutter and hosted as a website at **playwordle.xyz**

Volunteering

Head of Technical Projects, IEEE SB MUJ   **May 2021 - Apr 2022**
- Helped and guided **100+** students in creating technical projects who didn't had the complete prerequisite.

Graphic Designer, IEEE SB MUJ   **Feb 2020 - Apr 2021**
- Conceptualized and developed - graphics for Social Media plus event posters using Photoshop and Illustrator.
